unitar

United Nations Institute for Training and Research

The United Nations Institute for Training and Research (www.unitar.org) is a dedicated training arm of the United Nations System, and has the mandate to enhance the effectiveness of the UN through diplomatic training, and to increase the impact of national actions through public awareness-raising, education and training of public policy officials.

cifal

Global Network

The CIFAL Global Network is UNITAR's network of affiliated centres dedicated to provide cutting-edge training aimed at strengthening the capacities of government authorities and key change agents from local and sub-national levels to design and implement innovative solutions to global challenges. As of January 2018, the CIFAL Global Network is comprised of 17 training centres located across Africa, Asia, Europe, Australia and the Americas, reaching to 10,000 beneficiaries annually through more than 100 capacity building activities.

Message from the Executive Director

The 2030 Agenda for Sustainable Development provides the world with an undeniable opportunity to bring about widespread, positive change for humanity. The interconnected, universal and transformational nature of the Agenda requires collective responsibility, accountability and action, with governments, the United Nations system, and a range of other stakeholders all contributing to the implementation of the Sustainable Development Goals. The development of knowledge and the transfer of skills, in addition to other forms of capacity, will undeniably play an important role in this process.

UNITAR and its network of CIFAL training centres are committed to make a meaningful and impactful contribution towards the implementation of the Agenda, as well as the other major outcomes from 2015, including those of the Sendai (Disaster Risk Reduction) Paris (Climate Change) and Addis Ababa (Financing for Development) conferences.

The CIFAL Global Network assists primarily local authorities by providing training and learning opportunities, as well as by facilitating city-to-city cooperation that leads to the development and implementation of specific actions in support of sustainable development.

We invite you to join our training activities and to support our common endeavor to achieve the world we want by year 2030.

Nikhil Seth
United Nations Assistant Secretary-General
Executive Director of UNITAR

CIFAL Global Network

The CIFAL Global Network is UNITAR's network of training centres dedicated to strengthening the capacities of government authorities and civil society leaders to advance sustainable development.

CIFAL Centres provide an international platform for knowledge exchange, supporting sharing and dissemination of best practices and lessons learned across cities. With its City-Share methodology, CIFALs foster multi-stakeholder collaboration that leads to the design of innovative solutions to address current challenges.

Outreach

Over the last five years, the Network has reached close to 50,000 beneficiaries through over 500 training events. In 2017, the CIFAL Global Network reached 12,710 beneficiaries around the world through 101 training events.

The substantial increase in training services and greater outreach reflects both, the expansion of the Network and the continued demand for capacity building at local and subnational levels. In 2016, the CIFAL Global Network included in its training portfolio, activities aimed at raising awareness of the Agenda 2030 for Sustainable Development including its 17 Goals and 169 Targets.

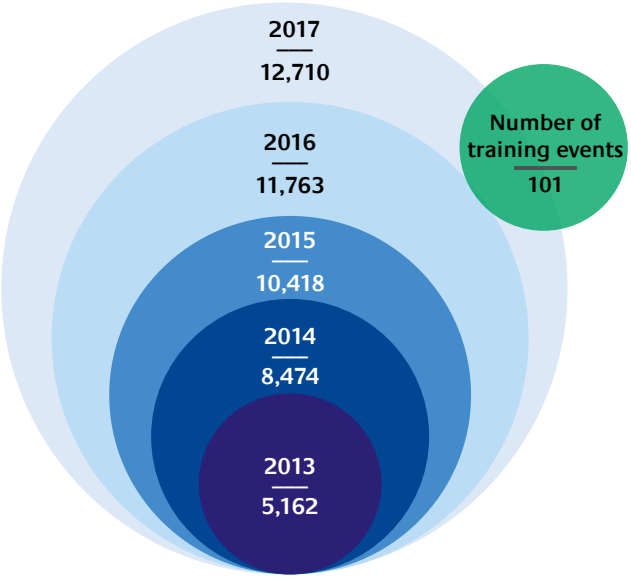
HIGHLIGHTS IN 2017

12,710 government officials, private sector representatives and civil society leaders from around the world participated in CIFAL centres activities

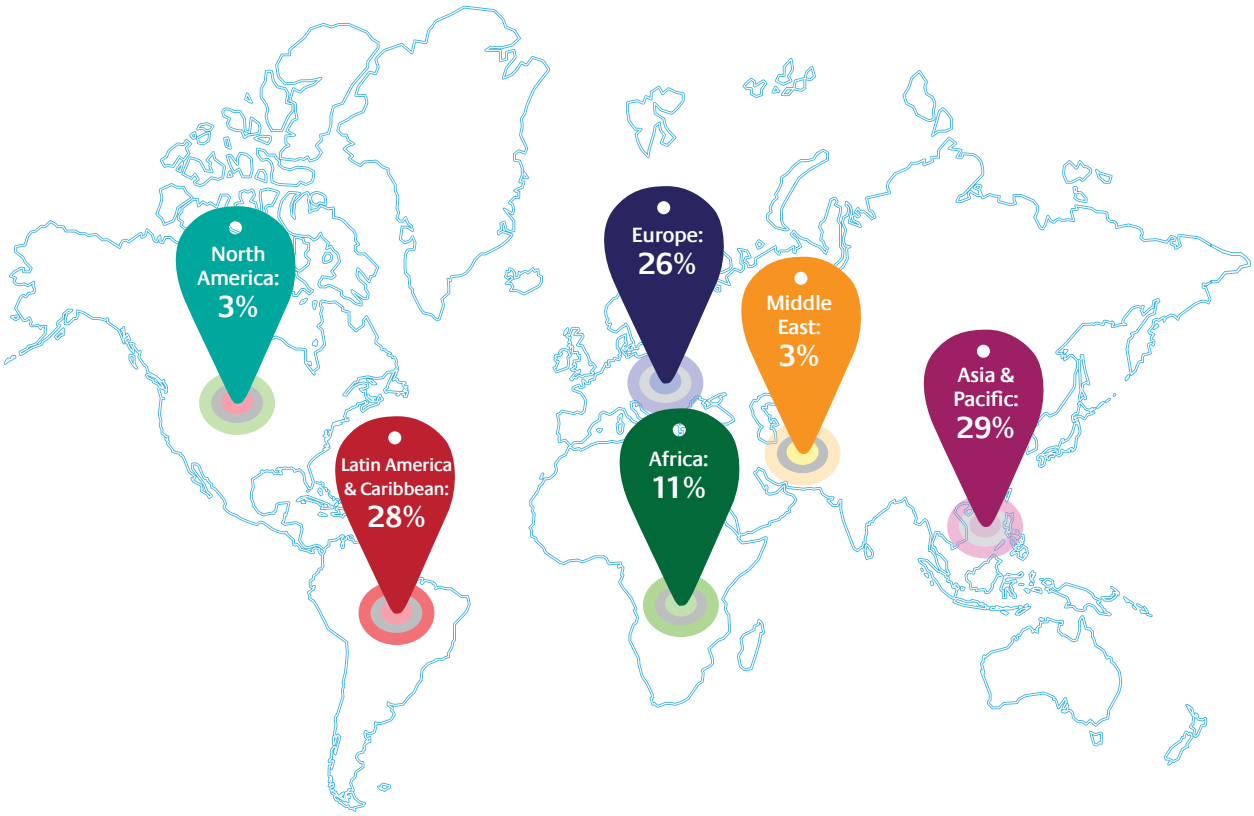
93 countries from Africa, Asia, Europe, North, Central and South America, as well as from the Caribbean were reached in 2017.

101 training and raising awareness events implemented by the CIFAL Global Network in 2017 covering a variety of topics in the areas of urban planning and governance, economic development, social inclusion, environmental sustainability, and leadership.

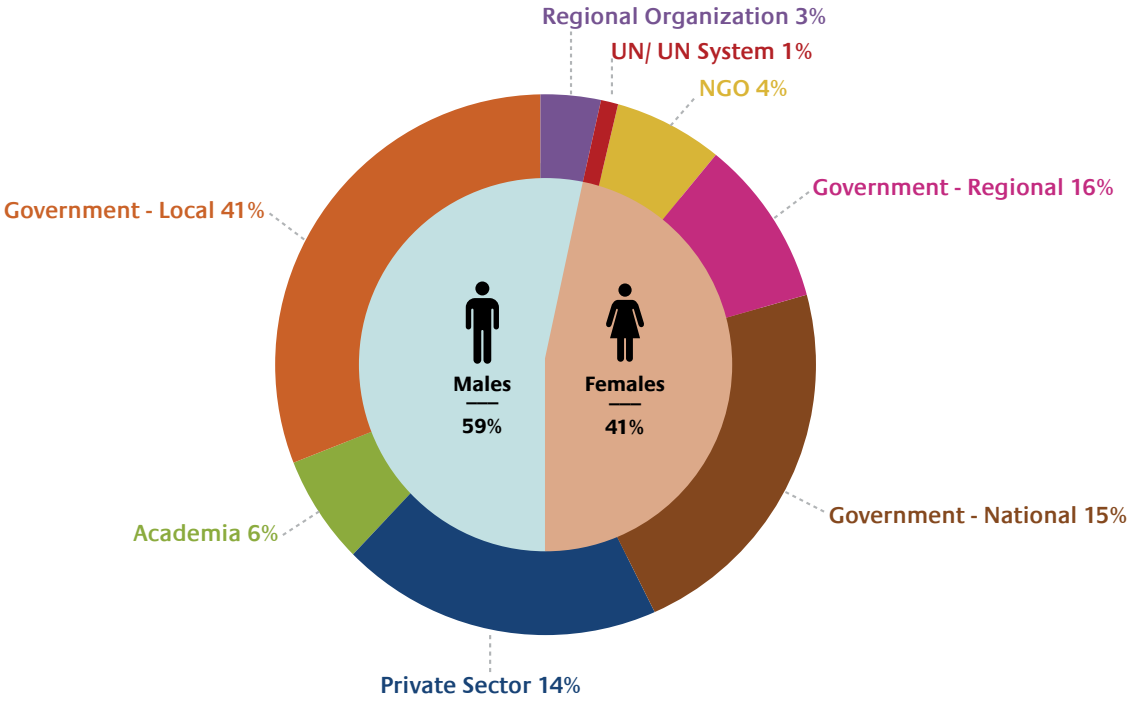
OUR BENEFICIARES (2013 - 2017)



BENEFICIARES BY REGION



BENEFICIARES BY SECTOR & GENDER



CIFAL Thematic Areas

As of January 2018, the CIFAL Global Network is comprised of seventeen centres across Africa, Asia, Australia, Europe, and the Americas.

Each "Centre International de Formation des Autorités et Leaders" (CIFAL) provides innovative training on key areas related to sustainable development and serves as hubs for the exchange of knowledge amongst government officials, non-governmental and international organizations, the private sector, civil society, academic institutions and the UN system.

Each CIFAL is specialized in thematic areas that are defined by the needs and priorities of the regions they serve. Their training programmes provide access to knowledge, resources and best practices, while promoting multi-stakeholder collaboration in support of sustainable development

Areas of work of the CIFAL Global Network

Urban Governance and Planning

- Sustainable Transportation
  - Road Safety
  - Waste Managment
  - Public Safety and Security
  - Technology and Smart Cities
- Integrated Urban Planning
- Disaster Risk Reduction

URBAN GOVERNANCE & PLANNING

Cities are engines for sustainable development and prosperity. Through the provision of innovative training and networking opportunities, the CIFAL Global Network contributes to build capacities of local government officials and leaders to plan and design cities in a sustainable way, improve the provision of public services and infrastructure, and prepare cities to be resilient, among many others.

ENVIRONMENTAL SUSTAINABILITY

Ensuring growth that is socially inclusive and environmentally sound is a key challenge. CIFAL Centres assist local governments and communities to develop solutions and policies that increase food security, build resilience to climate change, improve energy efficiency, and address their own development needs.

CROSS - CUTTING

The CIFALs provide training on cross cutting areas that are essential for advancing sustainable development such as leadership. Achieving the Sustainable Development Goals and addressing current challenges requires collaborative and innovative leadership. CIFALs offer training opportunities to enhance leadership skills and to promote effective collaboration.

SPECIAL INITIATIVES

A training initiative of UNITAR, to contribute to halve the number of global deaths and injuries from road traffic accidents by 2020. SDG 3.6

unitar
United Nations Institute for Training and Research

RS road safety
INITIATIVE FOR CITIES

Strengthening road safety for sustainable cities

Road traffic injuries claim more than 1.2 million lives each year with a disproportionate impact on health and development. They are the ninth leading cause of death across all age groups globally and the leading cause among young people aged between 15 and 29 years.

UNITAR's initiative on road safety aims to contribute to achieve SDG 3.6 to halve the number of global deaths and injuries from road traffic accidents by 2020.

UNITAR jointly with its CIFAL Global Network provide training opportunities aimed at strengthening capacities of government officials at local and national levels to implement road safety strategies and programmes.

Changing road users' behavior on key risk factors for road traffic injuries (speed, drink–driving, distracted driving, and the failure to use helmets, seat belts and child restraints properly or at all) is a key component for improving road safety. UNITAR and its CIFAL Centres also contribute to improve road user behavior through advocacy efforts and by increasing awareness of risk factors.

POST-GRADUATE PROGRAMMES

In addition to training and e-Learning courses, UNITAR and CIFAL Centres provide the opportunity to gain knowledge through post-graduate courses. UNITAR partners with academic institutions to offer diplomas and certificates, as well as Master's degrees.

Master of Disaster Resilience and Sustainable Development

UN Photo/ Evan Schneider

5 February - 11 May 2018 (deadline for application: 8 May)
21 May - 24 August 2018 (deadline for application: 21 August)
3 September - 7 December

The University of Newcastle, CIFAL Newcastle and UNITAR are offering the **Master of Disaster Resilience and Sustainable Development** that exposes professionals, organisations and communities to global best practice knowledge, and tools to implement the new UN Sustainable Development Goals and the Sendai framework for Disaster Risk Reduction.

This programme equips people from diverse backgrounds to understand resilience and sustainable development principles, and systematically apply them to the design of public, private, NGO, civil society organisations and the built environment. It aims to enhance organisations' capacity to avoid disasters, operate through extreme events and emerge better placed to face the future.

Upon graduation, in addition to the University degree students will receive UN co-certification from the United Nations Institute for Training and Research (UNITAR) and the United Nations Office for Disaster Risk Reduction (UNISDR).

The program combines flexibility (available both online and face-to-face on campus), relevance (staff who have global best practice experience in disaster relief, reconstruction and resilience building) and employability (of potential benefit to any organisation that recognises the need to build its resilience capacity for the future.

For more information:

Graduate Certificate in Disaster Risk Reduction (DRR)

Photo/ Kibae Park, Sipa Press

5 February - 11 May 2018 (deadline for application: 8 May)
21 May - 24 August 2018 (deadline for application: 21 August)
3 September - 7 December

The University of Newcastle, CIFAL Newcastle and UNITAR are pleased to offer the **Graduate Certificate in Disaster Risk Reduction** to provide graduates and professionals with the knowledge to manage the DRR process across all sectors of society. Students of the program will learn fundamental disaster risk concepts and receive training in the use of the most globally adopted DRR tools and protocols, some of these through direct engagement with UNITAR resources.

At the end of the programme, students will be capable of conducting disaster risk evaluations and guiding the subsequent development of disaster risk mitigation and management strategies for the organisation in which they work. This program will equip graduates to apply the Sendai Framework for Disaster Risk Reduction to public, private, NGO and civil society organisations.

The programme combines flexibility to study anywhere at any time as it is available both online and face-to-face on campus. Upon graduation, in addition to the university degree, students will receive UN co-certification from the United Nations Institute for Training and Research (UNITAR) and the United Nations International Office for Disaster Reduction (UNISDR).

Master in Migration Studies

UN Photo/UNHCR/R LeMoyne

November

The University of the Philippines and CIFAL Philippines are offering the Professional Master in Migration Studies, which is an interdisciplinary degree program that provides a theoretical and practical understanding of migration in the context of sustainable development.

It utilizes a blended learning (online and face-to-face) methodology to make migration studies more accessible, responsive and innovative for students. This program will help produce graduates capable of critically assessing migration opportunities and challenges through various perspectives and enable them to propose practical solutions to contemporary and emerging issues.

The degree program aims to prepare graduates for professional careers in migration and mobility management by strengthening their analytical and critical thinking, academic and professional ethics, and problem-solving abilities.

Postgraduate Diploma on Road Safety Management and Leadership (Titulo de postgrado: Experto en Gestión y Dirección en Seguridad Vial)

Road traffic injuries claim more than 1.2 million lives each year with a disproportionate impact on health and development. They are the ninth leading cause of death across all age groups globally and the leading cause among young people aged between 15 and 29 years.

The 2030 Agenda for Sustainable Development has set a goal of reducing road traffic deaths and injuries by 50% by 2020. Training and education is essential to contribute to reduce the number of deaths and injuries.

The Postgraduate Diploma on Road Safety Management and Leadership is offered by UNITAR, CIFAL Madrid, RACE and the European University, with the objective of empowering individuals responsible for road safety with knowledge and practical tools that will enable them to reduce traffic fatalities.

For more information, contact: info@cifalmadrid.org

Diploma in Airport Management

CIFAL Merida, in collaboration with the business school specialized in aeronautical and airport management studies, ITAerea Aeronautical Business School, the Airport Group of the Southeast of Mexico (ASUR) and the Airports Council International Latin America and the Caribbean (ACI-LAC) offers The Diploma in Airport Management - online modality.

The main objective of the program is to standardize the knowledge of the personnel who are in charge of airport terminals, in order to maintain the safety and proper functioning of the airports in accordance with international standards. The program covers topics such as the airport system in the world, infrastructure –problems of capacity and operation, airport facilities, air cargo, security, environment, commercial development, business management, among others.

The diploma targets personnel with experience in the airport sector. It is recommended that the participant occupy a position of command or supervision, as the contents of the course are advanced and the concepts presented in the diploma represent a previous level of knowledge acquired.
